Which paper picked better?

What happened to the know-it-all football writers of The Michigan Daily and The Badger Herald? Not one of the six writers finished above .500. Did it have something to do with the fact that every single upset that could

have happened, did? Illinois, Purdue, Indiana, Tennessee, Florida and UCLA all blew it for a combined total of 33 losses. Both papers finished with a .367 winning percentage. The Badger Herald writers

DID get their best bets correct, and therefore win by a slight margin.

Badger Herald wins ... barely
